ROTTING AND PACING RACES OVER THE NASHVILLE COURSE. A trotting and a pacing race in wagons came off over the Nashville course on yesterday evening.-

The entries for the trotting race were: Andrew Jackson, entered by Mr. HAMNER, and Telegraph, entered by Mr. FLUTCHER. We have harely time and space to give a brief

The 1st heat was won by Telegraph in 3:00, Andrew Juckson breaking up badly several times.

The 2d heat was won by Andrew Jackson in 2:541, and the 3d was won by him in 2:561. The two last heats were well contested through out, and created much excitement among the lookers enerally.

the pacing race was still more interesting, and we regret that, at the late hour of returning from the course, we cannot give an extended account of it. We give a brief statement.

The entries were: Finny Pierce, entered by Mr. NORE, and Decainr, entered by Mr. FLUTCHER. In the 1st heat, the mare broke up four times, and so badly each time that she was near being distanced. Time: 2:45.

In the 2d heat, the mare again broke up badly, and the horse again took the heat with ease in 2:461 In the 3d heat, the mare was drove by Mr. HAM-NER, and her friends were somewhat elated with the prospect of winning the heat. She started off badly, breaking up before fairly reaching the judge's stand. She was soon brought close to her work, however, and she went through the first three-quarters without again falling to pieces. At the last quarter, she was far in the rear, and it was evident that she would lose the heat. Much to the surprise of all, however, she closed up the gap, and lost the heat by not more than half a length. Time 2:45.

THE CHOPS IN THE SOUTH .- From our southern exchanges we observe, during the last week of the monthsof May, severely cold weather was experienced in Georgia, Alabama, Mississippi and Louisiana, and that it is feared the crops in these States have sustained great injury.

AGNES ANDERSON, THE MURDERER.-The N. O. Delta of the 2nd, thus speaks of the trial of Agnes Anderson in that city for murder : AGNES ANDERSON kills a man named Taylor in

broad day,-she acknowledges it before the magistrate and dozens of persons .- she boasts of it as an act of retributive justice for a base seduction of which they form so interesting a portion. and treachery,-the brother of the deceased, who saw him laid out, who beheld his ghastly wounds, is present in court, and by his presence, so disturbs the nerves of the accused, that her counsel has to interfere. And yet the State is unable to prove the fact of the killing! What everybody knows the court and jury can't know! Certainly, a system solittle in accordance with the common sense of the age, ought to be discarded from a civilized community. TULLARONA.-Because but little has been said

in our midst recently with reference to Tullahoma, some have come to the conclusion that it was on the wane-that it had run its race. Such is far from being the truth. The young town never has enjoyed a higher degree of prosperity, than it is now the recipient of. For proof of this, "let iscts be submitted to a candid world:" Handsome and spacious buildings, of various kinds, are going up rapidly. All branches of business exhibit an air of prosperity. "From rosy morn to dewy eve" the click of the hammer and the grating of the saw may be heard. Among the many structures in the course of erection, is a dwelling for Mrs. Junge Catron, of Nashville, to cost \$3,000 .-The sale of town lots, which was advertised in the Observer, for the first of June, was truly encouraging to the friends of the enterprize. Seventyfour lots were disposed of, for an aggregate sum of \$6,000 ! The supply was not equal to the demand. This is sufficient evidence that the public view Tullahoma as a town of prospective impor-tance, and that they are determined to reap a portion of the advantages accruing from the possession of property in a thriving business village .-The tide of prosperity that has rolled in upon Tul-Ishoma, is to be attributed to the judicious management of the gentlemanly managers, Gen. Wm. THE TERRITORY OF THE U.S. SOUTH or THE OHIO; Moore & Co., as well us to its own advantages. With such men at the head of affairs, success might have been safely predicted. The success that has crowned their efforts, is the highest compliment that can be paid to their ability .-- Fayette-

From a despatch to the New York Times from Washington, we learn that H. T. HULBERT, Esq., has been appointed Navy agent at this place, vice E. O. Perrin removed. The appointment of Mr. Hulbert will be hailed with satisfaction by his friends. Hubert is a gentleman well qualified in every respect to fulfill the duties of the office .--We congratulate our friend HULBERT upon his appointment .- Memphis Express.

of Directors of the Winchester and Alabama Railroad, Geo. W. White, Esq., was elected President, in place of Hugh Francis, Esq., resigned; and Jesse Arlege. Esq., was elected Secretary, in place of Mr. White, resigned. The resignation of Mr. Francis was caused by ill-health .- Winchester Independent.

RED SPRINGS. RED SPRINGS.

WE take pleasure in amounteing to our numerous friends and patrons, that we are now ready to accommodate all who may wish to avail themselves of the benefits of our place. Extensive preparations have been made for the comfort both of the invalid and the man of pleasure. It were needless for us to attempt to set forth the value of our place, in a medicinal point of view. Many, afflicted with various disapses, have visited us, and after a few weeks sojourn, have gone away either enfirely cured or greatly relieved—pagitoniarly such as have been afflicted with Scroula, diseases of the Skin, Stone in the Bladder, and also of the Dieases of the Skin, Stone in the Bladder, and also of the Di gestive System in general. Of these facts, there is an abundance of proof, and many who have certified to them, and the dance of proof, and many who have certified to them, and the same have gone forth to the afflicted people. And we have at this time two living specimens of Scrofula cases, cured sound and well, with us, to be seen as testimony to our declaration; one of which was almost a hopeless case. We are in Macon county, Middle Tennessee, 12 miles east of Lafayette, our county seat, 65 or 70 miles from Nashville, 45 miles turnpike, and the balance high ridge road, and other good country roads coming from every point—from Lebanon, Wilson county, Hartsville, Carthage, Gainsboro', Tomkinaville, Ginsgow, Gallatin, &c.

IMPORTANT TO IRON MANUFACTURERS. JAMES RENTON, of Newark, New Jersey,
has discovered a process for manufacturing wrought iron
directly from the ore, with wood or mineral coal, styled by
him an ore-welding furnace; an improvement in the manufacture of iron long wards after, but never successfully atfacture of iron long sought after, but never successfully at-tained until Mr. Reuton's discovery,) and which produces at a single heat the best quantity of blooms, at a less cost than pig iron is now usually made. Letters Patent have been granted him for his discovery, and we are the appointed agents for the sale of rights, and its introduction throughout the West; and as the present high price of iron is inducing many capitalists to invest in its manufacture, without being aware of the great advantages this new and valuable inven-tion has over any other known mode, we think it but subser-

ving their interest to thus early impress upon them the im-portance of an examination of the merit of this late inven-tion before embarking in any other made for making iron, assuring them of its entire success and practicability, as de monstrated by the furnaces now in successful operation after It is not our purpose in this advertisement to speak par-ticularly of the almost incalculable advantages this process possesses over all other modes for making Iron; (as this is contained in our circular, which we will be pleased to mai to the address of any one interested in the matter,) but to call the attention of those about investing in the manufac ture of Iron, and respectfully invite an examination of the furnace we are erecting in this city, and which will be in operation by the 5th June next, or to the furnaces of the American Iron Company in Newark, New Jersey, now operating with complete success.
